

Herb Schools & Herbal Programs

Below are some herbal education options to consider; by no means is this an exhaustive list. It is simply a list of some of our favorites and a good place to start your exploration. These herbal institutions offer a variety of long-term or short-term, in-person or online options. Each also has its own unique approach - this is one of the beautiful things about the herbal movement in the United States! You may want to reach out to the folks at these institutions to find the school that most speaks to your way of learning and special interest.
